Bots4Business

Unterstützung der Berufsbildung, um die Vorteile der künstlichen Intelligenz für das Wachstum und den Wohlstand von KMU zu nutzen

Bots4Business is a continuing education and training project that provides learning tools for the qualification of vocational education, training experts and staff of SMEs. The project is also aimed at supporting SMEs with regard to the implementation of AI by developing practical application scenarios (business cases) and transition pathways. It pursues a participative approach in which SMEs are actively involved in needs assessment, validation, development and application of training programmes and business cases.

DigiUp NEXT

Förderung der digitalen Kompetenzen von Jugendlichen, die vor einer Berufswahl stehen, mit Schwerpunkt auf Berufe im IT-Bereich

Advancing the digital skills of young people who need to make vocational choices is of key relevance in order to meet the requirements of the labour market. It is essential to foster vocational training and to expand the methods of vocational orientation by means of new technologies, particularly in the area of information technology. The project goals also include enhancing young people's ability to respond to a rapidly changing world, awakening their interest in new types of job and new methods, and fostering openness and flexibility.

Publics: teachers, pupils

Programme: Interreg ATHU

Next Gen

Grenzüberschreitende Entwicklung eines Berufsorientierungsmodells zur Förderung des Fachkräftenachwuchses im Bereich der erneuerbaren Energien

The Next GEN project is oriented towards tackling, in the medium-term and long-term, the problem of skills shortages in the area of renewable energy. By developing and testing new approaches, methodologies and event formats, an innovative vocational orientation model for school students aged 10 to 15 will be established. This is aimed at raising awareness of occupations and vocational training in the rapidly growing sector of renewable energy.

Publics: educational institutions, pupils

SoftSkills4Mfg

Soft Skills für die Fertigung

This project focuses on the vocational education and training sector of the processing industry and its preparation for green and digital transitions. Developing innovative curricula in line with needs and demands is of key relevance for improving the quality of vocational education and training. Cooperation across national borders contributes to the quality of VET and promotes the exchange on proven practices.

Publics: workers, educational institutions, interest groups

SUSTAIN-EU

European Sustainability Expert

The goal of SUSTAIN-EU is to design and develop a new forward-looking vocational education and training programme for individuals, which is oriented towards industrial needs. It addresses workers, students, experts and people looking for work, and enables them to qualify as European sustainability experts. In the context of this project, an innovative curriculum, qualification measures and an e-learning course for VET is being developed, based on recent insights into green skills, and aimed at closing the present gap in this area in the European labour markets.

BFI Oberösterreich

Facharbeiter:innenkurzausbildung Metallberufe Oberösterreich

The metalwork training programmes comprise both the selection process and the subsequent modular training as well as the compact training course for skilled workers. It is a future-oriented project aimed at meeting the great demand for skilled workers in the metalworking industry. Its goal is to train the participants, in line with their individual skill levels and their aptitude, along vocational requirements, and prepare them for modular exams and the final apprenticeship exam. One focus is on referral support to find employment, and thus sustainable integration into the labour market.

Publics: Job-seeking people

Programme: European Social Fund

Project number: L22/00804/MFR

Project period: 01.01.2024-31.12.2024

Contractor: BFI Oberösterreich

Contact: Wilhelm Hinterberger, BFI Oberösterreich, Rotaxstraße 3, 4623 Gunskirchen,
Tel.: +43/7246/20026-3178, E-Mail: wilhelm.hinterberger@bfi-ooe.at, www.bfi-ooe.at

National partner: AMS Oberösterreich, www.ams.at/organisation#oberoesterreich

This project is financially supported by the European Social Fund and the province of Upper Austria.

Karriere/digital

IT-Kompetenzen & Karriere-Coaching für Frauen

Women living in rural areas can acquire skills enabling an active, confident use of digital media in order to improve their situation in life and their incomes. The participants enhance their basic digital skills, gain their first coding experience, and get familiar with digital working contexts primarily in their home region. They are supported with regard to their vocational orientation and encouraged to consider digital jobs as a realistic option for their educational and vocational choices. This is achieved by implementing digital workshop offers, vocational orientation, as well as educational and vocational guidance.

Publics: women, immigrants

Programme: European Social Fund

Project number: 164/3 - LRGOOE

Project period: 01.01.2024-31.12.2026

Contractor: BFI Oberösterreich

Tel.: +43/732/6922-3993, E-Mail: daniela.aistleitner@bfi-ooe.at, www.bfi-ooe.at

This project is financially supported by the European Social Fund and the province of Upper Austria.

Lehrgang Elektrophaktiker:innen

Electrical practitioners are trained for specific types of work with certification qualifying them for a subarea of electrical engineering. We provide training in these "specific types of work" in the corresponding area of electrical engineering, with the option of sitting for a final exam.

The training includes:

- Assessment and training stages:
 - Basic module
 - Advanced module
 - Photovoltaics or e-mobility.
- Additional programmes:
 - Work placement
 - Field trips
 - Workshops on green jobs and sustainability
 - Special classes oriented towards individual needs
 - Job application coaching
 - Individual coaching.

Publics: women, interested people, young adults

Programme: European Social Fund

Project number: L23/00452/SCE

Project period: 01.01.2024-31.12.2024

Contractor: BFI Oberösterreich

Contact: Edda Berger, BFI Oberösterreich, Rotaxstraße 3, 4623 Gunskirchen,

Tel.: +43/7246/20026-3181, E-Mail: edda.berger@bfi-ooe.at, www.bfi-ooe.at

National partner: AMS Oberösterreich, www.ams.at/organisation#oberoesterreich

This project is financially supported by the European Social Fund and the province of Upper Austria.

ÖkoTech-Akademie in Oberösterreich

At the Upper Austrian ÖkoTech Academy, people are offered the opportunity to take part in a specialised training course in electrical engineering with a focus on plant and industrial engineering. In addition, they can expand their skills profile by acquiring green job qualifications in renewable energies (solar energy and photovoltaics) or alternative drive technology (e-mobility).

Additional programmes:

- Sustainable management
- Work placement
- Job application coaching
- Special classes oriented towards individual needs
- Personality coaching and communication
- Individual coaching.

Publics: women, interested people, young adults

Programme: European Social Fund

Project number: L23/00452/SCE

Project period: 01.01.2024-31.12.2024

Contractor: BFI Oberösterreich

Contact: Thomas Führer, BFI Oberösterreich, Heizhausgasse 21, 4800 Attnang-Puchheim,
Tel.: +43/7972/21399-1426, E-Mail: thomas.fuehrer@bfi-ooe.at, www.bfi-ooe.at

National partner: AMS Oberösterreich, www.ams.at/organisation#oberoesterreich

This project is financially supported by the European Social Fund and the province of Upper Austria.

BFI Salzburg

Du kannst was

The participants in this project can, in the context of skill recognition procedures, complete apprenticeships for the following occupations:

- Office clerk
 - Logistics clerk
 - Forwarding clerk
 - Retail sales staff
 - Metal engineering
 - Restaurant staff
 - Cook
 - Driver
- (List can be expanded whenever necessary).

The validation process consists of four steps:

- Initial interview
(assessment of prerequisites)
- Skills acquired in a non-formal way are documented in a portfolio and tested in a preliminary qualification check.
- Specific further education and training
- Second qualification check by the apprenticeship authority (→ final apprenticeship certificate)
- Parallel to this, participants can take up individual coaching sessions.

Publics: job-seeking people, women, people with a low level of qualification, immigrants

Programme: European Social Fund

BFI Wien

Erasmus+ Akkreditierung - Schulbildung

The Erasmus+ accreditation for school education programmes enables BFI Vienna, in co-operation with the schools run by BFI Vienna, to develop and implement school projects across different schools and across borders. In the context of this project, group mobilities with classes and school clubs are being scheduled. In addition, job shadowing programmes for teachers will take place. For the current project year, seven to ten class mobilities to European partner schools, as well as four job shadowing programmes, have been planned.
